

## Student's Personal report on E-learning and Flipped Classroom Activities (IO4)

**Student's name and surname: Daniel Beugnano**

**Class: 2G**

**Institute: Guido Donegani High School**

**Country: Italy**

**Specific in-depth topic of own home study and why this topic has been chosen (at least 200 characters)**

I chose agroecology because of all it seemed to me the most interesting topic and on which one could discuss more freely and, moreover, I also had a personal interest in agroecology.

**Comment about the activity done at home (at least 300 characters)**

At home it took me a while to write the TED talk, since I had to choose well which "slice" of agroecology to talk about. In the end, however, after setting the job and how it was done, everything turned out faster and, in the end, I was really happy with the result.

**Comment about the interactive activity in the classroom (at least 400 characters)**

In class, perhaps, it was the most difficult part. Obviously you feel anxious to expose a topic in front of many children, plus we were filmed. In the end, however, it wasn't difficult, thanks also to the help of the other guys. I don't think I got the exposure wrong, also because I have never been corrected, so I am delighted with the result.
